SCV IEEE/EMC Society Meeting Tuesday March 9, 2004

Time: 5:30 p.m. Social, 7:00 p.m. Presentation

Place: Applied Materials Bowers Cafe
3090 Bowers, Santa Clara, CA 95051-0804

Subject: "China Product Conformity Assessment – the Issues Foreign Companies are facing in the China Market"

Speaker: Leslie Bai, SIEMIC, Inc.

Details:

The presentation will start with an introduction of the China Product Assessment System and cover its history, the present certification systems, and its predictable evolution. The introduction will cover four major China Certification Systems (CCC, NAL, RTA, and MPS) currently administered under different government agencies. There will be a discussion of the issues foreign companies are now facing in the Chinese market. Time permitting, recent hot topics will also be covered: a) China GB Standards for WLAN and the implementation of WLAN product certification; b) the Chinese government's position on and current status of SAR (Specific Energy Absorption Rate) from the October 2003 Guilin Conference; c) the new Chinese GB Standards Working Group on RFID technology.

Biography:

Leslie Bai is the Director of Certification at SIEMIC, Inc, compliance testing and global certification facilities in the USA and China. Mr. Bai has over 15 years experience in Signal Integrity/EMI analysis, modeling and simulation, trouble-shooting/consultancy, Microwave measurements, Regulatory Affairs, EMC/RF Compliance Design, Compliance testing, reports and global certifications. A NARTE Certified EMC Engineer, Mr. Bai received a B.S.E.E. and an M.S.E.E. at Nanjing University, and a Master of Engineering in Telecommunication Engineering at Nanyang Technological University in Singapore. His professional experience includes the Research Institute of Electronics Engineering under China Ministry of Information Industry, SPRING Singapore, and as Senior Regulatory Consultant at Dell. He is a native Chinese Mandarin speaker and fluent in four other Asian languages. He can be reached at LeslieBai@siemic.com.

The IEEE EMC Society Santa Clara Valley Chapter invites members and vendors to advertise in the Spectral Lines.

If you have an interest, please contact:

Jack Huber, IEEE-EMC Society, Santa Clara Valley Chapter

1531 West Hedding Street, San Jose, CA 95126

[Jhuber@lairdtech.com](mailto:jhuber@lairdtech.com) Tel: 408 241-5699; Fax: 408 241-5689

Space is available to any of the paid sponsors of the EMC SCV Chapter to present technical articles. For details or to submit articles, please contact: Dale Gutierrez at Dalegut@ieee.org

2004 IEEE Symposium Call for Papers

The technical papers program for the 2004 IEEE EMC Symposium, to be held in Santa Clara August 9-13, has been finalized. Currently we have 23 technical papers sessions on Tuesday, Wednesday, and Thursday. We are in need of qualified persons to serve as session chairs of each of these 23 sessions.

The duties of the session chairs are to:

- (1) attend the speakers breakfast the morning of the day when you will serve as chair,
- (2) insure that all speakers are present and accounted for at that breakfast,
- (3) become acquainted with your session speakers and obtain their bio or other material for introducing them,
- (4) prepare a slide or overhead summarizing the speakers, their topics and their times,
- (5) instruct and ready speakers for use of A/V equipment and accessories,
- (6) moderate the sessions insuring that the speakers keep to the schedule: 20 minute presentation and 5 minute Q&A.

If you are interested in being a session chair, please contact the Technical Papers Chair, Clayton Paul, at Paul_CR@Mercer.edu and give your area of expertise. I will try to fit you to an appropriate session.

We may not be able to use your services depending on your area and the volume of responses we have to this request but would like to thank you in advance for your willingness to contribute.

Clayton Paul,
Technical Papers Chair for EMC2004.
